

Manu Ishan

Full Stack Developer — React — Next.js — Django

 ManuIshan  Manuishan.in  manueshanchekkali@gmail.com  +91 7736620996

Summary

Full Stack Developer with strong expertise in building scalable web applications using **React.js**, **Next.js**, **Django**, and **Django REST Framework**. Experienced in designing secure REST APIs, implementing JWT-based authentication, and building responsive frontend systems.

Skilled in end-to-end development including frontend architecture, backend logic, database design, API integration, testing, and deployment using modern technologies.

Experience

Python Full Stack Developer Intern – Druv 360

Jan 2026 – Mar 2026

- Developed industry-level full-stack web applications using React.js, Next.js, Django, and Django REST Framework.
- Built scalable frontend components and integrated them with backend REST APIs.
- Designed and consumed APIs with proper error handling and data flow management.
- Worked with PostgreSQL for production-level database systems.
- Followed clean architecture and modular coding practices.
- Collaborated using Git and GitHub in a team environment.

Full Stack Developer Intern – Techolas Technologies

May 2025 – Feb 2026

- Designed and developed full-stack web applications using React.js, Next.js, and Django.
- Built secure RESTful APIs using Django REST Framework with JWT authentication.
- Implemented role-based access control and custom user model architecture.
- Designed relational database schemas using PostgreSQL and SQLite.
- Integrated frontend and backend using Axios.
- Tested APIs using Postman and Thunder Client.
- Deployed applications using Vercel and Render.
- Followed clean code practices and Git-based workflows.

Projects

Speako – Online Learning Platform

2026

 GitHub [Hosted Link](#)

- Full-stack e-learning platform built using React and Django REST Framework.
- Implemented JWT authentication and role-based access control.
- Built course management system and personalized dashboards.
- Developed admin panel for managing users and courses.
- Designed RESTful APIs with secure communication.
- Performed backend API testing using Postman and Thunder Client.
- Implemented frontend testing using React Testing Library.
- Deployed using Vercel and Render with PostgreSQL.

HajjHaven – Travel & Booking Platform

2026

 GitHub [Hosted Link](#)

- Built a responsive web application using Next.js and React.
- Implemented component-based architecture with App Router.
- Designed modern UI with responsive layouts and clean structure.
- Enhanced UX using Framer Motion animations.

- Managed version control using Git and GitHub.

Stylra – E-Commerce Fashion Platform

2025

 GitHub

- Developed e-commerce frontend using React.js and Context API.
- Implemented global cart system and product filtering.
- Optimized UI and component reusability.

Gym Guide App

2024

 GitHub

- Developed backend using Django REST APIs.
- Integrated Flutter frontend with backend services.
- Implemented workout tracking and goal features.

Education

2022–2025 Bachelor of Computer Applications, **LBS Model Degree College, Parappanangadi**
CGPA: 7.4/10

2021–2022 Class 12th, Kerala State Board

Technical Skills

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js (App Router), Redux, Context API, React Router, Tailwind CSS, React-Bootstrap, Material UI, Framer Motion

Backend: Django, Django REST Framework, RESTful API Design, JWT Authentication, Role-Based Access Control

Database: PostgreSQL, MySQL, SQLite

Testing: Postman, Thunder Client, React Testing Library

Tools: Git, GitHub, VS Code, PyCharm, Vercel, Render, Axios

Soft Skills: Problem-solving, Team Collaboration, Communication, Adaptability
